Personality is defined as the characteristic set of behaviors, cognitions, and emotional patterns that evolve from biological and environmental factors. While there is no generally agreed upon definition of personality, most theories focus on motivation and psychological interactions with one's environment. Trait-based personality theories, such as those defined by Raymond Cattell define ...

Hill: Everything's changing. A little while ago, most people went to bed thinking that the craziest thing in the world was a billionaire in a flying metal suit. Then aliens invade New York then were beaten back by, among others, a giant green monster, a costumed hero from the 40's, and a god. Ward: I don't think Thor's technically a god. Hill: Well, you haven't been near his arms.
