POPULATION GROWTH TRENDS, PROJECTIONS, CHALLENGES AND

India is the first country to develop family planning policies. Though it covers only 2.4 per cent of world land area, it has 16 per cent of world's population.

POPULATION AND FAMILY PLANNING POLICIES IN INDIA

Population of India is quite large and rapidly increasing. One percent growth rate means an addition of 1 crore people every year but actually speaking 2 crore persons are being added every year. So effective population control measures is the need of the hour. We know that birth rate is mainly responsible for rapid population growth.

Measures to Control Population of India - Economics Discussion

India's Population Policy Von Carl Haub In 2008, India's population stood at 1.15 billion after having crossed the 1 billion mark in May of 2000. This huge population puts India in second place behind China, with 1.32 billion. Yet faster population growth in India will likely make it the world's largest country before 2025.

India's Population Policy - berlin-institut.org

Family planning in India. India adds up to 1,000,000 people to its population every 20 days. Extensive family planning has become a priority in an effort to curb the projected population of two billion by the end of the twenty-first century.

Family planning in India - Wikipedia

Abstract. The long-term projections indicate a national population of 996 million by the year 2,000 A.D., and 1,336 million in the year 2030 A.D. Further, for the very long run, a stationary population of 1.7 billion is hypothesized for India in the middle of the 22nd century.

Population policy in India | SpringerLink

Overview. With a current population of about 1.2 billion people and continued population growth, India is expected to surpass China by 2030 and become the world's most populous nation. India's National Population Policy recognizes the need to address population growth in order to maintain the steady increases in social and economic development,...
