Human multitasking is an apparent human ability to perform more than one task, or activity, at the same time. An example of multitasking is taking phone calls while typing an email and reading a book. Multitasking can result in time wasted due to human context switching and apparently causing more errors due to insufficient attention. If one becomes proficient at two tasks it is possible to ...

As to the number of pigeon-holes that have been created, Coffield et al. (2004) write that "the sheer number of dichotomies in the literature conveys something of the current conceptual confusion" (p. 136). In their review, they refer to 30 different dichotomous learning styles in the literature 2 (see Table 1).
